SKETCH

Flipify

The word "Flipify" is rendered in a clean, sans-serif typeface. It is overlaid with a series of thin, dotted lines that form a geometric sketch. These lines include two large, overlapping circles and two intersecting diagonal lines that create a diamond-like shape. The word "Flipify" is positioned such that it appears to be part of the underlying geometric construction, with the letters "i" and "f" partially enclosed by the circles and the diagonal lines.
